## INTRODUCTION

As part of the implementation of OSS project, we want to support the creation of an attractive, tailor-made ecosystem for start-ups. The aim of the project is to improve the growth of SMEs, entrepreneurs' skills and overcome numerous barriers.

One of the most important goals of the project is to improve the SME competitiveness policy by strengthening advisory support services for novice entrepreneurs. As a result, a complete ecosystem will be built for entrepreneurs who want to enter the market with their activities.

The second semester of the project is coming to the end. Therefore, we would like to introduce to you what happened during this semester.

Enjoy your reading! 😊

## PROJECT PARTNERSHIP

Seven partners from seven countries participate in The OSS project that aims to improve policies for the competitiveness of the SME sector by improving advisory services for new entrepreneurs.

The partnership includes:

- LP - [Møre and Romsdal County Council \(NO\)](#)
- PP2 - [WSX Enterprise, Fareham \(UK\)](#)
- PP3 - [Agency for Regional and Economic Development, Vratsa \(BG\)](#)

## DEVELOPMENT OF A DIGITAL TOOL IN NORWAY

The advisory service in Möre og Romsdal, hoppid.no, are working on developing a digital tool for start-ups. The first line service system for the entrepreneur in the county contains 30 offices covering all municipalities. The advisory service is a formalized collaboration between different levels of governance and the municipalities. The County Authority, The County Governor, Innovation Norway and all the different municipalities work together in this partnership, hoppid.no.

On 24 – 25th of April 2019, they launched their first test version (EMP) of an digital entrepreneurial path for start-ups, with a digital training tool incorporated in to the solution. Twelve advisors from the advisory service system, hoppid.no, participated in training to start using the new tool towards the entrepreneurs in the region. The goal for the digital project is to create a service that is closer to the entrepreneur, and a service they can get regardless of where they live in the region. [More...](#)
