

WOMIN Project in Ankara

The meeting was held face to face with the participation of UK and Romanian partners in Ankara. Other partners participated online. BOSEV hosted the meeting at the meeting hall of the Private Ortadogu Hospital.

The meeting started with the presentations of agenda topics. The latest draft of the newsletter has been shared.

Feedback from all partners about the C1 event provided insight into what we could control/change.

All updates have been uploaded to Freedcamp.

Co-funded by the
Erasmus+ Programme
of the European Union

Works on IO1 and IO2

All partners stated that their trainers were very impressed with how it was organised and found the content of the C1 event both interesting and relevant; all attendees more interested in future cooperation between partners; attendees agreed it was a great experience and appreciated the opportunity to share knowledge.

Some found the training to be a little too long for online training and preferred if it could have been broken up a little more; however, they all appreciated being able to improve their digital and online skills; the interactive sessions were found to be really enjoyable
