

WOMIN Training for WOMEN

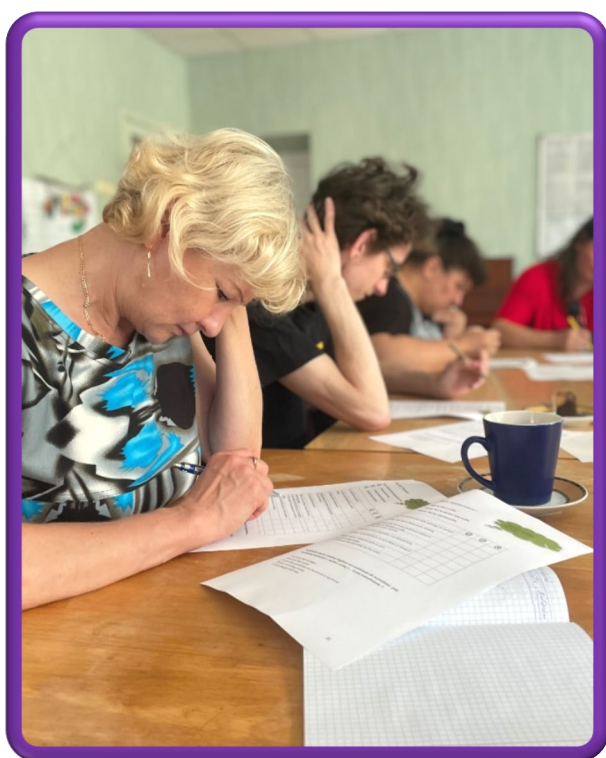

We are proud of completing the pilot applications of our WOMIN project, which we carry out within the scope of adult education strategic partnerships as part of the Erasmus Plus Program, with intense participation in partner countries.

After the tools and webinars we produced to improve the digital skills of women entrepreneurs, we have now met women entrepreneurs with pilot applications aiming to develop their soft skills.

Co-funded by the
Erasmus+ Programme
of the European Union

After the research we conducted at the beginning of the project, we shared 5-day pilot trainings covering topics such as communication, public speaking, body language, self employment, Critical thinking & Networking, Gamification and Digital Toolkit, and Social Economy with at least 2 trainers in each country and women beneficiaries. As it will be remembered, we trained at least 4 trainers from each country under the moderation of our Romanian partner before the pilot applications.

The Project is funded by the European Commission in the framework of Erasmus+ programme - KA2 Strategic Partnerships in the Field of Adult Education - for the period of 24 months (December 2020 – November 2022). 2020-1-UK01-KA204-078986
