

Brief Summary of WOMIN

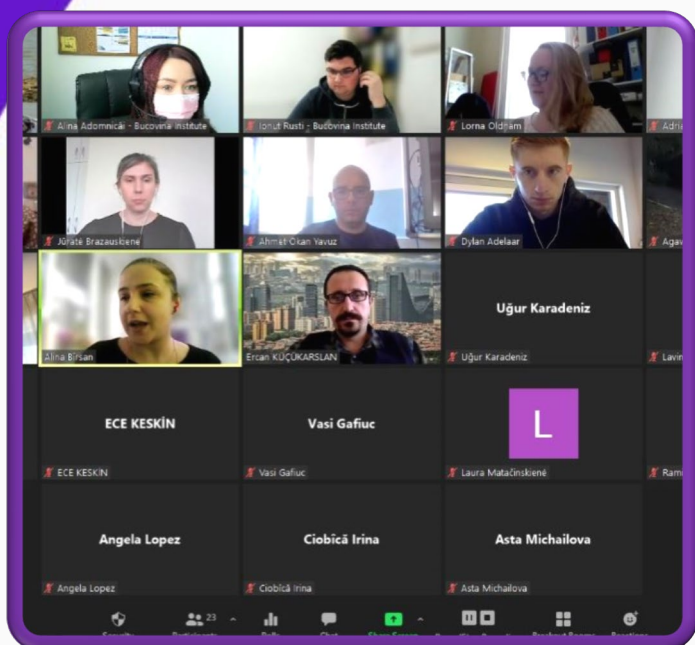

We have come to the end of our 24-month project. The WOMIN project brought together 6 EU partners from the United Kingdom(2 partners) , Netherlands, Romania , Lithuania and Turkiye to make a positive difference in the socio-economic outcomes of disengaged women in their local communities through joint action and collaboration.

The WOMIN project has produced 2 intellectual outputs that can be quite useful not only for women but everyone.

The first IO is "WOMIN Entrepreneurship Training Programme For Educators & Trainers". The output consists of 10 modules with the topics "communication , self-employment , critical thinking , networking, social entrepreneurship , social economy , gamification and digital toolkit".

The second IO is "Digital Toolkit and Webinars". Webinars on the topics in the first output are available on YouTube and LiveStorm digital platforms.

The project's website <https://www.womineu.com/> also provides digital access to training content.

Co-funded by the
Erasmus+ Programme
of the European Union

During the project period the consortium met sometimes online, sometimes face-to-face and sometimes hybrid. In total 15 steering committee meetings, 6 transnational project meetings and 1 training event were organized.

Our trainers provided training to women in their own countries using the educational content produced in the project. The women, who are the main target group of the project, gave very pleasant feedback.

We hope to inspire many more women and people through our multiplier activities and social networks in all countries.

Digital Toolkit

The Digital Toolkit is the second output developed within the WOMIN project.
